

ACTS 9 BT Kid's activities

I pray you will find delight in the Sabbath as you prepare this week....

ACTIVITIES- I added pictures to the links where I could to help you decide what to use a little faster

As always, I would suggest acting out this story from the chapter. You can use all or any of these activities to teach the story along with reading it from the chapter. Practice during the week and then your kids can act it out for their homegroups! Print these to work on during the week but also use them in homegroup as the lesson is being discussed. Your kids can be right there with you contributing to the reading and teaching.
