Discussion Questions:

1. How are you influenced by those around you more than you influence them? In what ways do believers and congregations tend to look more like the culture and society around them to their detriment? How are we “married” to things not of God?
2. Is there a bad teaching that you had or have given ear to and integrated into your thought life? How were you affected by it in your behavior or speech?
3. What keeps you from intentionally being set apart from the culture? What keeps you from repenting of any un-set-apart-ness?
4. How is being like the world to win the world a flawed strategy?
5. How was Constantine's official state sanctioning of Christianity a bad thing in the short and long term?
6. When do we in our congregations make the mistake of thinking that we are bigger and more important than we really are?
