

## Joshua 12

This chapter talks about the kings that were conquered by Moses and Joshua. There were a lot of kings conquered by Joshua (31) and Moses (2) so we decided to concentrate on one king conquered by Moses (OG) and one king conquered by Joshua (Ai)

Eamon colored the map during the week before homegroup. He colored the sides where Moses and Joshua conquered the land on each side of the Jordan River. He then told us the story of Moses and Joshua and where they won the battles.

We had a surprise appearance from OG! It was fun to talk about how big he was and talk about Giants!

If you download the story planner version, it includes the story with the pictures. There is also a Power Point version, thumbnails and jpegs so you have lots of options of how you want to use the pictures. I made the kids a story board on a poster by cutting out the pictures with words so they could see it all on the same place, but you could also put them on index cards or just use the computer version. You can also make this story shorter

by taking out some of the pictures and details for now.

We took turns telling parts of the story using the story board. Everyone got involved!

I must admit Ai took a backseat to Og since we had talked about that battle before (Joshua 7-8) and giants are much more fun! But – here are some ideas if you have time to do both:

### The Battle of Ai

Information and pictures you can adapt to the the story

At the end stones are placed on top of his body so we got some rocks and acted it out.

One of the best parts is Eamon saying I am “Brian Chima” and know how to play guitar!
