This is written on an adult level, but older kids could understand, and it gives you more ways to expand on the brief but important mentioning of Achsah. We discussed how she was a woman of valor. She asked for a field and springs of water to make it prosperous. She was wise. Caleb was blessed for his obedience but his blessings also went to the next generation and he was able to double bless his daughter.

Achsah and Caleb

We are still using the maps from the last lesson (see last week's links) and talked about Hebron this week. When we pull out the maps, I review the directions of North, South, East and West. They will hear these directions over and over and it will help them to visualize and follow along even with that basic understanding.

Inheritance is a good topic to review. Talk about something you inherited that was special to you and something they might inherit someday. Inheritance is mentioned throughout the Bible including in Joshua 14. This could be a good study topic for the older kids.

Shalom,

Heather
